Funding Methods – This reserve was initially funded in June 2012 with excess fund balance.

Use of Reserve – The District recommends utilizing the Worker's Compensation Reserve to offset the self-insurance administrative costs through St. Lawrence-Lewis BOCES in addition to an equal annual amount to offset premium costs. - 2020-2021 - $\$82,460 + \$16,740 = \$99,201$
- 2021-2022 - $\$85,760 + \$17,410 = \$103,169$
- 2022-2023 - $\$89,190 + \$18,106 = \$107,296$

Monitoring of Reserve – The Business Manager monitors the Worker's Compensation Reserve.

Funding Level – A funding level equal to approximately five (5) years of Worker's Compensation expenses is desired. A five year projected liability for administrative expenses is \$496,769. The District will endeavor to replenish the Worker's Compensation reserve to a balance of \$496,769 by the end of June 30, 2023. Any excess balance at June 30, 2023 will be returned to the General Fund for other purposes.

Reserve for Accrued Employee Benefits Liability

Creation – This reserve was created on September 13, 1999.

Purpose – This reserve is used to pay for unused accumulated leave time contractually provided to employees, upon termination of the employee's service. Expenditures made from the Employee Benefit Accrued Liability Reserve fund include cash payment for the value of accumulated or accrued and unused sick leave or vacation leave. This fund cannot be used to pay for items such as: retirement incentives, social security and Medicare payments and retiree health insurance.

Funding Methods – This reserve was funded from excess fund balance and may be funded with budgetary appropriations or funds from other reserves authorized under General Municipal Law (GML).

Use of Reserve – This reserve is used when an employee separates from the District and payment of accumulated leave is required. These transactions flow through the General Fund budget with the offsetting revenue coming from a drawdown of this reserve, as needed. The District will continue to budget an annual allocation from the Accrued Employee Benefits Liability reserve to offset the budgeted expenditure.

Monitoring of Reserve – The Business Manager monitors the Accrued Employee Benefits Liability reserve. Annually, a detailed analysis of the liability is computed and is used to support funding this reserve at 100% of the district's liability.

Funding Level – This reserve should be funded at 100% of the accrued liability for unused accumulated leave time.

Actual Balance at 7/1/18: \$595,171.75

Recommended Balance at 6/30/18: \$274,260.66 (including interest) or actual liability calculated, whichever is less.

Excess Balance at 6/30/2018: \$320,911.09.

Reserve for Unemployment Insurance

Creation – This reserve was created prior to June 30, 1997.

Purpose – This reserve is used to reimburse New York State for payments made to claimants where the district uses the benefit reimbursement method. The District does subscribe to the benefit reimbursement method, meaning we reimburse the State for actual claims incurred. We do not pay New York State a fixed premium for unemployment insurance coverage.

Funding Methods – This reserve was funded entirely from excess fund balance when it was created. The unemployment insurance reserve can be funded with budgetary appropriations, other funds that may be legally appropriated or funds from other reserves authorized under General Municipal Law (GML).

Use of Reserve – The District recommends utilizing the Unemployment Insurance reserve to offset expenditures to the New York State Unemployment Insurance fund. A five-year plan includes a projection of \$31,590 cost per year for five (5) years. The current annual projection is calculated assuming three (3) estimated staff reductions at the maximum allowable benefit.

- 2018-2019 - \$31,590
- 2019-2020 - \$31,590
- 2020-2021 - \$31,590
